-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 to 5, 10 to 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims do not clearly point out and distinctly claim the subject matter. The claims recite that the mask grows only on the projections of the substrate or first layer. The next step recites growth of the nitride compound in the recess portions of the of the substrate or layer and on the masks. It is unclear to one of ordinary skill in the art as to where the growth of the first layer is to be preformed, only ion the recesses or over the entire structure including the mask layers. Clarification and/or correction is required,

Response to Applicants' Arguments

Applicant's arguments filed November 12, 2004 have been fully considered but they are not persuasive.

Applicants' argument concerning the 112 rejections is noted. However, applicants require that one of ordinary skill in the art read the instant specification to understand the claims. One cannot read limitations from the specification into the claims. Also, note, that applicants admit in the arguments that it is a three-step growth process, which is merely claimed as growth in the claims. Further, how can it be within the skill of the art if one needs to read and understand applicants' own specification to

Art Unit: 1765

understand the claims? Since, the specification is to teach a new non-obvious invention which is not in the skill of the art. Applicants have not pointed to any prior art to show the understanding of the instant claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert M Kunemund whose telephone number is 571-272-1464. The examiner can normally be reached on 8 hours.
